APRIL IS YOUTH MONTH!

Help young ones learn about financial literacy by exposing them early to sound money habits. Wondering where to start? Here are a few ideas to help get you started:

- **Earning Money:** Help them understand the value of money and the effort needed to earn it. Encourage kids to earn money by doing small jobs around the house.
- **Setting Savings Goals:** Help them plan for things they want to buy, like a new toy or game. Writing down how much they have saved versus how much they need will help! **Open a savings account at the credit union to build their savings!**
- **Counting Money:** Instill money-counting skills using different coins and notes. Depending on their age, introduce them to various payment methods, including cash and mobile payments.
- **Charity and Gifts:** Encourage kids to spend part of their money on charity or buying presents for friends, fostering a sense of generosity and community belonging.
